The Commission met to discuss the issue of our new Airport Manager, Tom Dills obtaining his license to operate the Airport. According to the State Aeronautical Commission, a legal Airport must have a licensed manager to stay open. Dale Storrer placed a call to the State of Michigan Aeronautical Commission to inquire about Mr. Dills application for a license. He was told that the license was in the mail and should be here by December 29, 1980.

Mr. Hauch moved and Hugh Flippo seconded that the meeting be adjourned.
